

# Lost Pet

**Luna**

**Breed/Type:** Other

**Gender:** Male

**Age:** Young

**Reward:** yes

**Location:** Durham, 3 Cynthia Ct

**Description:** Description: Grey and white cockatiel, has a red leg band around his right leg, some flight feathers clipped but not all

Luna escaped the house on 6/13 afternoon and was last seen around 8:45PM flying circles around a nearby house (8 Willis Ct) before flying off to the south. Likely still in the neighborhood.

He has always been an indoor bird so he is scared. He responds to cockatiel flock calls on YouTube if you are looking for him. Might come to you if you offer him millet or banana
