

Found Pet

Artemis

Breed/Type: Domestic Short Hair

Gender: Female

Age: Adult

Reward:

Location: Fuquay-Varina, 2524 Christian Light Rd

Description: Approximately 2-3 year old female. Extremely sweet, very good with cats, dogs, and people. Had a litter earlier this year where all kittens were placed. Had another litter recently (approx. 9 wks) and cannot find homes for them. We have other animals in our house and just can't keep taking care of mom and her babies. She herself has been vaccinated as much as she could be after having kittens (when first litter was approx. 3 wks) and has a flea collar. Kittens have had their 8 wk shots and are being given flea baths to keep them clean. All cats are friendly and social.
