

Lost Pet

Elliot

Breed/Type: Domestic Short Hair

Gender: Male

Age: Senior

Reward:

Location: Raleigh, 2700 Benevolence Drive

Description: Elliot has Kidney Disease and requires a prescription diet. He also has medication for anxiety and arthritis. He is 11 years old and missing his upper left canine and two of his bottom smaller teeth. He has blue/green eyes and weighs about 9lbs. His collar he went missing in is grey, and his rabies tag (from his vet) should be on it along with a "silently judging you" tag that has mine and my husbands phone numbers. One of his ear tips has a small "v" notch in it.
