

Lost Pet

Sasha

Breed/Type: Mixed

Gender: Male

Age: Young

Reward: yes

Location: Knightdale, 1410 Aragon Drive

Description: Sasha was LOST on October 31, 2022 in Knightdale, NC 27545 near Aragon Drive, Knightdale

Message from Owner: We just rescued Sasha (formerly Beahr) from the SPCA and he has already become a vital part of our family. He does have some serious fear issues we're working through, and is very skiddish as a result. If you see him please be very calm and do not approach or try to grab him. Just keep him in your sights and call me to come and get him.

Description: Very skiddish. Small, 15 lbs boy with short hair, Brindle coat (black and brown) and a white chest and paws. Responds to Bear or Sasha. He has fear issues, so I prefer that you do not grab/approach, please just call and keep him in your sights.
