

Found Pet

Breed/Type: Australian Cattle dog

Gender: Male

Age: Adult

Reward: no

Location: Raleigh, 555 someplace side of road

Description: He's very sweet. Good in leash. Limes people and other dogs. Seems a little nervous around younger children. We've done best we can to place him but have not been able to find a home. Now my sister in law who found him is leaving for a long trip to fight fires in another state and will not be able to continue to search for a home for him.
