

# Lost Pet

**Cole / Cole-man**

**Breed/Type:** Domestic Medium Hair

**Gender:** Male

**Age:** Adult

**Reward:** yes

**Location:** Wake Forest, 2428 Everstone Rd

**Description:** Cole is our indoor/outdoor cat that is super super friendly. He can be fairly talkative and is quite chunky. He was not wearing a collar when he went missing. If he's in the sunshine, his fur looks like an almost reddish color. He is 100% solid black with a few singular white hairs on his chest that you can only see when you're up close to him. He has big green eyes and is honestly the best boy ever. He's super smart and loves attention from people, so I wouldn't be surprised if he wandered into someone's open door. He's my first pet and my baby and we want him back home so badly.
