

Lost Pet

Birb

Breed/Type: Other

Gender: Male

Age: Young

Reward: no

Location: Cary, 16000 Wisdom Dr

Description: My Green Cheek Conure flew out our front door at approximately 5 PM this evening. We located him in the trees across the street but once the sun set and it started to rain, he stopped responding. He responds best to "bird" or "birb" or phrases like "hi birb" or "pretty birb". He also likes higher pitched voices. If anyone sees or finds him, please call me immediately at (440) 581-2127. Thank you in advance.
