

Found Pet

Unknown

Breed/Type: Mixed

Gender: Male

Age: Young

Reward: no

Location: Wake Forest, 2100 Kinsale Meadow

Description: He's a super sweet boy. Very curious and wants to play with my 5yo female Jack Russell. He unfortunately is NOT microchipped. He was found last night 2/6/23 sitting on the front porch of a neighbor in the "Manors" section of Waterstone Reserve neighborhood which off of Hwy 98 and Camp Kanata Rd in Wake Forest. He spent the night with us and cried a bit but slept most of the night in the kennel. He's about 14" tall and 17" long, guessing he's about +/- 16lbs. Description: White with tan ears and spots on torso. Young puppy male, freshly groomed with a sequene bow tie collar. On the collar was blue painters tape with the name "Wevy" written on it so hoping it was done by the groomer. He's very sweet. Looks to be a terrier mix, maybe some hound in him. He has a fluffy curled tail.
