

Lost Pet

Omar

Breed/Type: Russian

Gender: Male

Age: Baby

Reward:

Location: Zebulon, 5008 Watsonia Dr

Description: He is about 6 months old and 10 pounds. I last saw him before I left for work around 8am yesterday morning. My mom said when she woke up around 11am, the door was slightly open. I've looked all throughout the neighborhood and in my house and I can't find my sweet boy. In some pictures he almost looks black but he is actually a dark gray with some white by his neck and tummy. He also has a slightly striped tail (grey with black/darker gray stripes) If someone sees him in Zebulon specifically in the Taryn Meadows neighborhood please let me know!
