

Lost Pet

Pumpkin

Breed/Type: Domestic Short Hair

Gender: Female

Age: Young

Reward:

Location: Apex, 1206 Nottinghill Walk

Description: Pumpkin is a cute, thin little lightweight tabby with a long body. She isn't striped the whole way through her middle, and looks like she has a bit of a bengal mix. My daughter and I rescued her in Pennsylvania before we moved back to Apex and she has had vaccinations but no microchip. This is her first time being outside since her rescue. She was not spayed yet, and was in heat the night she escaped so could be a pregnant kitty by the time found. We are heartbroken and have been searching day and night for her. Please help!
