

# Found Pet

## Shelter calling him Toucan Sam - no tags on collar

**Breed/Type:** Pit Bull

**Gender:** Male

**Age:** Young

**Reward:**

**Location:** Knightdale, horton road near pond - near Adair Lane?

**Description:** A big LOVEBUG!! He licked my face the whole way to the shelter. A sleek black all over with a whit line down the front of his face, and white toes. A high-pitched bark, and again, very sweet and loving and LOTS OF ENERGY! Found him near the little pond with goose family on left on Horton when coming from Library/Knightdale Blvd....about a mile from East Regional Library. Not chipped that they could find. Off-white collar with a stripe, no tags!! A real lovebug!! PHOTO:
