

# Found Pet

e calling them Pumpkin and Patch, but we don't know their names

**Breed/Type:** Beagle

**Gender:** Female

**Age:** Adult

**Reward:** no

**Location:** Apex, 2833 Evans Road

**Description:** One is approximately 5 years old and appears to be the Mother of the other 5 month old pup we found. Mom Looks a little like a beagle, but not exactly...the pup has a face like a fox. They Also do not have beagle characteristics (no howling or following their noses)... both are very sweet. No tags or microchip, but we did just get them checked out and rabies shots. They are house and crate trained.
