

Lost Pet

Earl Grey

Breed/Type: Mixed, small

Gender: Male

Age: Adult

Reward: yes

Location: Raleigh, 1620, Lorraine Rd

Description: Hello friends in the Raleigh area! Our beloved cat Earl Grey (grey cat in the video) has been missing since Sunday morning. He is a 2 year old neutered male. His microchip ID is 982126057299065. We leave central in Raleigh close to Ridgewood. He should have a collar with my phone number but may have missed it in his attempts to explore the world by himself. If you see him or have any suggestions, please, please email me! Nataliaduquew@gmail.com TIA!
