

# Found Pet

**Breed/Type:** Mixed, medium

**Gender:** Male

**Age:** Adult

**Reward:** no

**Location:** Raleigh, 9000 Mere Ct

**Description:** When we viewed the house that we now own, there was a sign that said the cat did not belong to the previous owners. He's very friendly has a raspy meow and loves head scratches and following me around outside. I swear he wants to be an indoor cat but we cannot because we have severe cat allergies. We have been feeding him And I will build him a shelter but lately he has been trying to run into the house, which makes me wonder if he belonged to someone and then I found this page. it is getting cold and I'm hoping he has a family looking for him
