

Found Pet

Breed/Type: Domestic Longhair

Gender: Male

Age:

Reward:

Location: Fuquay-Varina, 600 Holland Road

Description: He is actually a tabby, light gray, white paws and chest, so sweet, but shy so cannot take to vet yet to scan for microchip. Want to help him. Is he yours? He has been around since potentially December, but definitely since mid-January. We are feeding him twice a day and try to give him shelter - he likes being under our deck, shed porch, under the magnolias.
