Description: MISSING CAT-- PLEASE HELP! Cary, NC
Gregory South apartments

My cat broke out of my apartment last night and I have still yet to find him. His name is wrenn and will respond to wrennie, wrenn-wrenn or just wrenn. Due to the fact that for the first 5 years of his life he was never introduced to other people he is only a fan of myself and one other. He most likely will not be easy to grab but is very food motivated.

If you see him please be careful if you try to pick him up and no worries if you don't attempt to do so, but please call me if you spot him so I can bring my little boy home.

****Note:** I only have until Saturday 11/23/2024 to find him as I am flying home to Germany and will be gone for 3 weeks. I have already canceled a flight as I was supposed to leave today (11/21) but couldn't bring myself to leave without finding him.
