

Lost Pet

Cheeto

Breed/Type: Domestic Short Hair

Gender: Male

Age: Adult

Reward: yes

Location: Rolesville, Bendemeer Ln.

Description: He is a very large cat with his left ear tipped and is microchipped. He is feral but caretaker friendly so he will not approach anyone he does not know. He may be with a gray tabby cat since they are bonded. We have been caring for him for several years and are very worried- they are never away from the property for more than a few hours at a time.
